

Dear Patient,

I realize how many orthopedic surgeons there are for you to choose from, and I am deeply humbled by your consideration.

I am, however, also saddened by the fact that I am not enrolled in your insurance provider's plan – whether that be by their choice or mine. This considered, I still welcome the opportunity to care for you. This is why I have created a concierge surgical program for my self-pay patients to recognize your financial commitment.

Although you must pay a fee for my services, all other expenses should be covered by your insurance. Furthermore, I will do everything in my power to assist you throughout the whole process, including providing you with information that you can submit for reimbursement, which may help defray your out-of-pocket cost.

I want to provide you with an exceptional patient experience beginning to end, with focused, compassionate, and state-of-the-art personalized care. My fees include:

- Direct access to me or my PA 24/7 via a private phone line
- All preoperative and post-operative office appointments* – The initial consultation appointment fee is credited toward the surgical payment
- Preoperative surgical planning (Hip and Knee Replacements) – A \$450 value
- Preoperative CT scan (Knee Replacements) – A \$250 value
- Perioperative X-rays
- Assistance to obtain a life-long implant guarantee
- Assistance for low or no-interest financing options
- Discounted rates for other site surgeries
- Surgical guarantee* –If you have a complication that requires additional surgical intervention(s), I will care for you to ensure you achieve your desired final result.

*For 1-year post-operative

I am not aware of any surgeon in the United States, or the world, that offers such a program. I believe my dedication, skill, and care will help you achieve your goals – whether they involve skiing, traveling, golfing, or simply going on a leisurely walk pain-free!

I appreciate your consideration.

Tyler D. Goldberg, MD
